IRUKANDJI FIRST AID

IRUKANDJI JELLYFISH — FIRST AID

MEDICAL EMERGENCY

DO:

- Apply vinegar to the sting area immediately
- Call 000
- Keep the person calm and still
- Watch for symptoms appearing 5–40 minutes later
- Monitor for severe muscle pain, nausea, vomiting, restlessness, anxiety
- Follow crew or medical instructions closely

DO NOT:

❌ Do not rub the area
❌ Do not apply freshwater
❌ Do not delay seeking help
❌ Do not assume “mild symptoms” are safe—Irukandji can worsen quickly
